MEMO TO RECORD

SUBJECT: Jonesville Post Office Administrative Record

After review of the Administrative Record for the discontinuance of the Jonesville Post Office, the following information is added to clarify certain factual statements. The information below is organized by the Item number corresponding to the Administrative Record.

Item Nos. 6, 8, 17, 23 and 35

Item Nos. 6, 8, 17, 23 and 35 should indicate that there are 568 unused mail boxes currently available at the Waskom Post Office. There would be no additional cost to discontinuing the Jonesville Post Office if all 111 Jonesville customers choose to maintain a Post Office Box at the Waskom Post Office.

If, however, Jonesville Post Office Box customers choose to utilize rural delivery service, there would be an additional expense of \$10,463 annually. The breakdown is as follows:

One hundred and eleven new boxes with a volume factor of 1.41 would result in an additional 379 minutes, or 6:19 hours, per week. The rural carrier currently has a workload of 48:39 hours per week, and the additional 111 boxes will result in a total workload of 54:48 per week. Currently, the rural carrier is classified as a K41 (working 10 days per pay period), earning \$41,400 per year. The relief carrier earns \$7,778 annually. This classification has a workload maximum of 49:47 hours per week, which is less than the new total with the 111 boxes added. As a result, the carrier will be reclassified as a K46 carrier (working 10 days per pay period), earning \$48,899 annually and the relief carrier will work the additional 2 days at an annual rate of \$8,726. Thus, the addition of the new 111 boxes will result in a total cost of \$84,803, less the current cost of \$74,340, for a total cost increase of \$10,463 per year.

Total costs are calculated based on data for R003, Waskom, TX. which currently delivers in the Jonesville area.
